One-stop Electronic Components Distributor

Numbers speak

We offer a wide range of electronic components, commercial and industrial, in small or large volumes, to meet diverse industry needs, including:

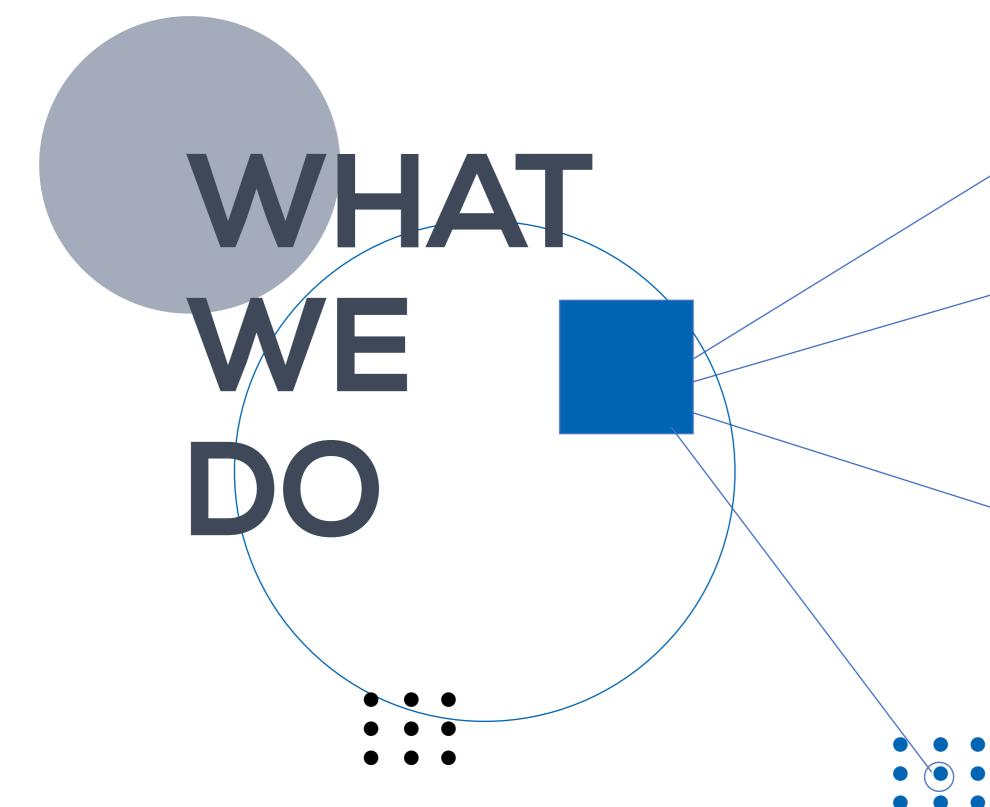

- integrated circuits (ICs)
- displays
- passive components

Our mission is simple: to deliver unwavering service and support, tackle customer supply chain challenges with dedication, ensure top-quality products through strategic partnerships, and offer competitive pricing through efficient operations all while maintaining the integrity that defines our success.

-0

SERVICES ABOUT US CONTACT

• Procurement Optimization

Helping clients streamline sourcing and reduce costs

Customized Displays

Comprehensive solutions from LCD, TFT to smart embedded displays, tailored to your needs.

• Excess Inventory Solutions

Effective inventory solutions to maximize value.

Turn-key PCBAs

From component sourcing to assembly, we offer end-to-end services.

0 FEIN elektronik

Sourcing exclusively through factory or franchise lines not only limits potential for cost and time savings, but also exposes you to the risks of sole sourcing. We distributors offer an alternative route, particularly valuable for OEMs seeking legacy or hard-to-find components.

SERVICES ABOUT US CONTACT

Procurement Optimization

- Global Procurement
- Supply Chain Continuity
- Obsolete Component Solutions
- BOM Optimization
- Alternative Component Strategies

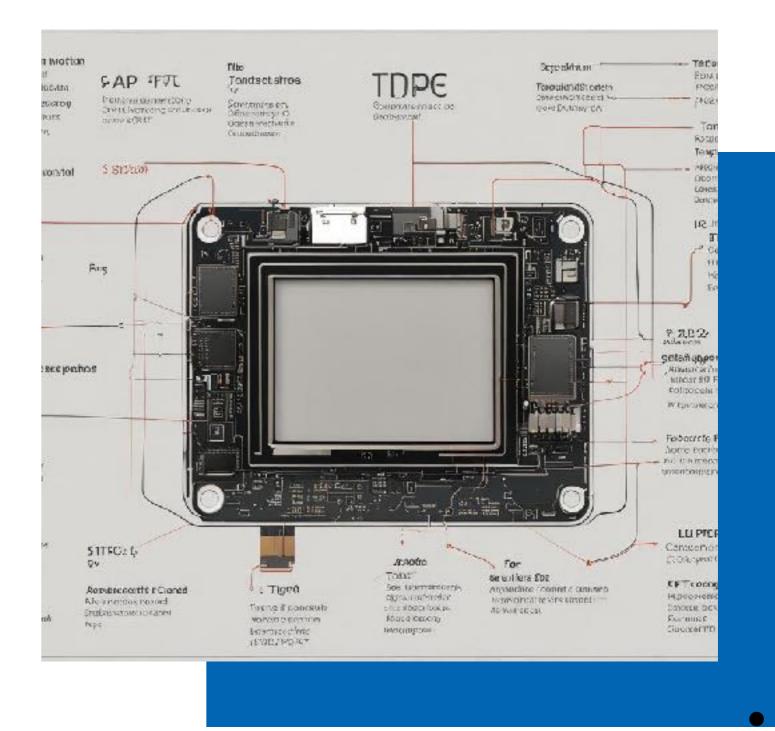

Displays Customization Expertise

- Unique shapes (round, square, bar-type) and specialized finishes such as AG (Anti-Glare), AF (Anti-Fingerprint), and AR (Anti-Reflective).
- Custom configurations for interfaces (RGB, SPI, MCU, MIPI) and backlight designs to suit diverse applications.
- Integration of advanced bonding techniques like OCA and air bonding for enhanced durability and visual clarity.

End-to-End Solutions

Whether it's standalone displays or fully assembled modules with touch screens, cover lenses, and driving boards, we provide seamless solutions that integrate effortlessly into your systems.

SERVICES ABOUT US CONTACT

Our display solutions serve diverse markets and sectors, including consumer electronics, industrial automation, medical devices, and mobility applications.

WHO ME ARE

With over 16 years of experience, Fein Elektronik Group is a trusted partner in the electronic components supply chain. Headquartered in Germany, the Group brings together four dynamic entities across Europe and Asia, leveraging a synergized network of resources and expertise to deliver reliable, efficient, and tailored solutions to our clients.

FEIN elektronik -0 -0

Our Locations

- Fein Elektronik Hong kong: Strategically positioned as our Asian distribution center.

SERVICES ABOUT US CONTACT

- Fein Elektronik Germany: Located in Frankfurt, the Group's headquarters and European distribution center. - Fein Elektronik France: Focused on providing localized sales and support for the European market. - Fein Elektronik China (inland): Supporting global operations with a strong presence in Asia.

2000m² warehouse in Hainburg, Germany

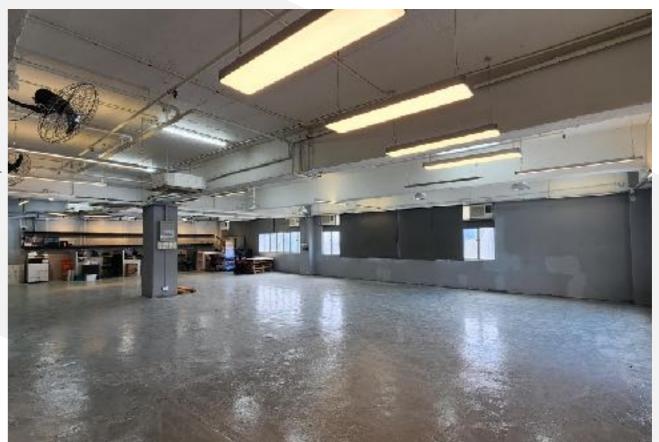

Europe Distribution Center

Germany, as one of Europe's largest economies, interconnected with other European countries and regions, enabling coverage of the European market and supply chain. Furthermore, Germany offers well-developed transportation networks, along with modern ports and airports, providing favorable conditions for components transportation. Its logistics service level and efficiency are particularly noteworthy, leading within the European region.

Asia Distribution Center

Hong Kong is a key international logistics and trade hub in Asia. Its prime geographical location facilitates connections to major cities across Asia and beyond, offering convenience for the transportation of electronic components. With advanced logistics infrastructure, including modern ports, airports, railways, road networks, and efficient customs clearance services, Hong Kong supports rapid, secure, and reliable components transportation.

Warehouse and Logistics

Specialized Warehousing Facilities

We meet the standards developed by the industry addressing safe handling and storage of electronic parts, including temperature control (20°C-25°C), humidity regulation & prevention of ESD. To ensure parts quality and safety.

Rapid Delivery Service

Our efficient distribution networks enable us to provide fast and reliable delivery services, ensuring uninterrupted production processes for our customers.

Customized Services

We provide a range of storage and logistics solutions, designed to meet our customers' specific requirements. Including labeling, special packaging, etc.

Quality Assurance Measures

We implement strict safety measures to ensure the integrity and safety of parts during the warehousing process, safeguarding customer interests. (Secured by advanced security systems and financially protected by property insurance)

CHOOSE::

Wec

We commit to transparency and honesty in all our actions.

Dedication

We approach every task with focus and persistence to achieve success.

SERVICES ABOUT US CONTACT

Integrity

Precision

We strive for accuracy and consistency to deliver highquality results.

Customer Focus

We prioritize understanding and meeting the needs of our partners and clients.

Quality Control

At Fein Elektronik we believe that quality and attention to details truly matter, It's not just a word we throw around, it's a mindset we embrace in everything we do.

With strict inspection system through our entire sourcing network, every part that passes through us undergoes rigorous testing procedures. We work closely with top certified testing labs to ensure the quality of products. Component authentication, electrical testing and more value-added services as per customers request.

ABOUT US CONTACT SERVICES

Component **Authentication & Testing**

One-year Quality Guarantee

When you make a purchase through Fein, you will be protected by our One-Year Quality Guarantee.

In the event that the components provided by us fail to meet the specifications set forth by the manufacturer within twelve months, we will either replace the components or refund the original purchase price.

All components that enter our warehouse go through a thorough inspection process on arrival. Components are photographed and undergo inspection based on the type of part, age, supply chain and specific customer requirements.

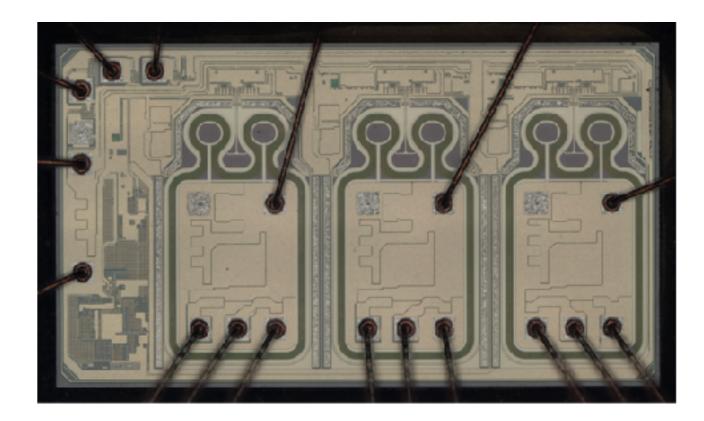

- Documentation and packaging -
- Label inspection -
- **Component visual inspection** -
 - Acetone/mixed solvent test (Destructive testing only on demand)
 - Scrape test (Destructive testing only on demand)

Extended testing from third party

As per customer requirements (international certified testing labs such as White Horse)

- X-ray testing -
- DECAP (Decapsulation analysis)
- **Electrical Performance Testing**
- Functional Testing & More
